# CONTENT

MARIKA

Marika Magazine is a publication whose main purpose is fashion. We believe that fashion is not only about clothes and accessories. Fashion is a reflection of society's life here and now: its inspirations as well as its contradictions and problems. That's why it's important for us to show fashion in every sphere, from the versatility of the outside world to the beauty of the human soul. We cover it through photography, video projects, art, interviews, and conceptual editorials.

Our goal is to spread the fashion creations of artists around the world. We don't want to limit fashion to one concept: no rules. Ideas and self-expression are paramount. After all, Marika magazine is a platform for recognizing strong photo and video content and thoughtful concepts. We invite those who want to change the world through fashion and photography. the opportunity to those who are looking to expose themselves to the world.
